

REMARKS

Reconsideration of this application is respectfully requested.

Claims 1-8 are pending in the application. In the Office Action, the Examiner has rejected Claims 1-8 under 35 U.S.C. § 103 (a) as being unpatentable over *Jung et al.* (U.S. 6,097,949) in view of *Lietsalmi et al.* (U.S. 6,370,391 B1).

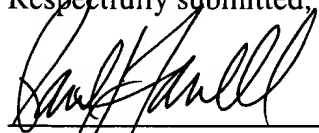

As indicated above, the Examiner has rejected independent Claims 1, 3, and 5 under 35 U.S.C. § 103 (a) as being unpatentable over *Jung* in view of *Lietsalmi*. In this rejection the Examiner asserts that *Jung* teaches converting broadcasting information to a predetermined message code according to type and contents of the broadcasting information. However, it is respectfully submitted that the Examiner is incorrect.

More specifically, as previously presented, it is respectfully submitted that *Jung* in view of *Lietsalmi* does not teach using a message header and also *converting the actual broadcasting information into a predetermined code*. It appears that the Examiner is citing column 2 of *Lietsalmi* as teaching this recitation. However, it is respectfully submitted that this section recites coding the message category field, but not the message itself. Further, *Lietsalmi* teaches using an index message, which is not an equivalent of the converted message contents. Accordingly, it is respectfully submitted that the Examiner is incorrect in rejecting Claims 1, 3, and 5 under 35 U.S.C. § 103 (a) as being unpatentable over *Jung* in view of *Lietsalmi*. Therefore, it is respectfully submitted that Claims 1, 3, and 5 are patentably distinct from the Examiner's cited art, and it is respectfully requested that the rejection of these claims be withdrawn.

It is respectfully submitted that the dependent Claims 2, 4, 6, 7 and 8 are allowable based on allowance of their respective independent claims.

Accordingly, it is respectfully submitted that the present application is in condition for allowance. Should the Examiner have any questions, it is respectfully requested that the undersigned attorney be contacted at the earliest convenience to discuss the present application. Early and favorable action is earnestly solicited.

Respectfully submitted,
